### Did you know?

Port Cares provides assistance with basic needs, information, resources and referrals through programs that include client services, housing, skills development, employment, Niagara Youth Justice and EarlyON centres. Just ask staff for more information!

**Expression** or communication (to be heard, as well as to listen) may take many different forms. Through their bodies, words, and use of materials, children develop capacities for increasingly complex communication. Opportunities to explore materials support creativity, problem solving, and mathematical behaviours. Language-rich environments support growing communication skills, which are foundational for literacy.
